RE: MB Docket No. 04-233

Dear Ms. Dortch:

I am writing on behalf of the Rochester Athletic Club, located in Rochester, Minnesota. We are one of the five largest athletic clubs in the United States with 330 employees serving over 13,000 members. We meet the social, athletic, fitness, and educational needs of the community.

We enjoy a cordial and professional working relationship with our local television station KTTC. Staff at KTTC has always been approachable. We are able to discuss a wide variety of topics from very serious to entertaining in nature.

We have joined with KTTC in multiple projects for the good of the community. We are concluding a twelve week fitness and weight management program that was open to the public. Many educational segments were aired to increase the viewer's knowledge of a healthy lifestyle. We co-produce "Fitness Friday", a segment on the noon news to educate the public on health topics. Another co-venture will be a community wide health fair scheduled for this summer.

KTTC does air many stories concerning health issues, the latest technology and health discoveries. This level of exposure would not be possible if it were not for the cooperation of KTTC.

KTTC does much to raise the knowledge of the public concerning health matters and we are deeply indebted and appreciative of their contribution.

We do not see any reason for new rules concerning local programming. KTTC is a committed community partner. Any additional bureaucratic rules would disturb a relationship that already works well.

Respectfully submitted,

A handwritten signature in black ink that reads "Greg Lappin".
